

# PRECOURSE NEXT GENERATION EUS

**MARCH 1, 2023**

Course directors: Livia Archibugi, Matteo Tacelli

## THIS IS NOT A CONVENTIONAL COURSE

\_ A bit of evidence-based knowledge but a lot of practical tips and tricks to use tomorrow in your EUS room

\_ Lectures by young experts in the field (those that yesterday had the same questions you have but found an answer)

\_ Fully dedicated to young gastroenterologists (<40 years of age) planning to become the future endosonographers

\_ Check the program: Both diagnostic and therapeutic EUS, plus a bit of pathology à everything you wanted to know but never dared to ask

\_ **IT IS FREE** and gives you access to the whole EURO-EUS congress

## HANDS-ON

**MARCH 1, 2023**

6 fully equipped EUS Stations and 1 ERCP station will be available and run under supervision of a selected Team of Trainers who will guide the participants through all the Stations.

The HANDS-ON activity will cover all the topics of diagnostic and therapeutic Echoendoscopy and the ERCP station will be available to practice papillary cannulation. Different set of animal models and a training model for ERCP will allow the participants to perform an extensive hands-on training program on:

EUS-core biopsy, Pancreatic Cyst FNA, FNA of solid lesions (pancreatic mass, liver mass and lymph node), Pancreatic pseudocyst drainage (with plastic stents and LAMS stents), Accessory imaging devices, EUS-guided biliary access, EUS fiducials, radiofrequency ablation and papillary/ducts cannulation with ERCP training model.

All the state of the art EUS instruments will be available to try during the sessions.
